The new Nightwear Pack includes Neptune's Comet, Neptune's Staircase, Neptune's Drama, and Neptune's Lunar Orbiter. Pick a female character from the Neptune's Compendium to wear the costume set. With the main heroine Neptune in our eyes, we are going to implement the Neptune of the 2D turn-based RPG series, heavily in the lines of Hyperdimension Neptunia. If you want to take a look, there are many screenshots of our moe girls which is not hiding anything from you. Time to reveal more about the game! 1. Introduction From this game, that meets the expectations of "a turn-based RPG", the moe and gimmick of this game are implemented. With the Neptunia game series, the lineup is also expanded with characters such as CPU, etc, so how about it? The Neptunia series is a visual novel and RPG that is an RPG first with moe. It is a game where if you choose, it is "moe" or "game". When choosing a game that requires both, there is a slight problem, and this is unavoidable. Anyway, as a visual novel and RPG, now the gaming style is changing, and the title is portrayed in a visual novel. In addition, from "deluxe" in hyperdimension of Superdimension Neptune vs Sega Hard Girls, you can expect a change to "big"! 2. What is "moe"? Moe is a term used in Japanese culture, and what moe is, we will explain here. Moe in Japanese culture is actually a fairly complicated concept. For example, if we say "moe" is "blonde with kawaii" and is someone who is immature, "moe" is something that can not be defined easily. This is why we are using the term "moe" as in the context of Megadimension Neptunia. "Moe" is a concept that is as large as the imagination of the person who comes up with it. The concept of moe is very difficult to define. So "moe" is something that cannot be fully understood by anyone else. Because of that, it is more natural to know "moe" to someone who is familiar with it. To someone familiar with the concept, "moe" is a very personal concept. So, this is why some people in the world are only able to know "moe"

Substrata for Modo indie's Substrata to be released I just got my license for Modo 8 and after a lot of reading I decided to go for it and download an archive using the DVD creator that came with it. It installed without any problems but now there are TWO things. ONE: I can't change my user name. Why? F-L-O-W. f-l-o-w. F-L-O-W. How do I change it?? TWO: \*sigh\* I can't seem to break it in and download a package. I don't have the package loader that came with it. I just have a simple file (.zip) that leads to a password page. When I enter my password it then asks for a new password. No dice. I tried every darn password I can think of and even some non-alphanumeric ones but no dice. Any**

suggestions? Thank you very much for this reply. I tried to figure out how to change my user name once I got my first disc (I live next to a road and have had a few cars driven down there so if they look at the name on the folder on the left side I get kinda suspicious) but it was impossible to find out how or what to do for a start. I was wondering if you have any help for me. Any idea of some instruction somewhere on the World Wide Web in which I can find out how to do this? There are plenty of instructions in the Modo help file but I'm blind as a bat. Any Idea of some instruction somewhere on the World Wide Web in which I can find out how to do this?
